MICHIGAN ELECTION .- We have received some further returns of the Judicial election.

John 8. Goodrich (Whig) is elected Circuit Jadge of the Seventh District, (Counties of Lapeer, Genesee, Saginaw, Shiawassee, Livingston Tuscola and Midland,) Andrew Parsons (Opp.) is elected Regent of the University in the same District.

In the Villth District (Kent, Barry, Ottawa Ionia, Clinton and Montonim) George Martin (Whig) is elected Circuit Judge.

The result in the third Circuit in the election of a "Reform Democrat" Judge (S. T. Douglass) shows that Cassism is defunct in its strongbold. Ex Chancellor Elon Farnaworth is elected Regent of the University. The Judges and Regents just elected serve for 6 years.

orrespondence of The Tribune.

BALTIMORE, Friday, April 11-P. M. Arrangements are making to send out a large number of emigrants to Liberia on the 1st of May, in the regular packet. About 150 colored persons from the valley of Virginia are expected to embark together and found a new town on the Coast. Several meetings of colored persons have recently been held in the Southern section of the city to get up an association to emigrate together, and a large number of families have signified their intention of going. Among the number are several who possess considerable property. If a movement like this be made, there will no doubt be a very large emigration from Baitimore and the

Among the number are seen and, there will no doubt be a very large emigration from Baltimore and the State.

Quite a difficulty has occurred here between Mr. E. Mills of New-York, the principal owner of the steamer Brother Jonathan, and the passengers. The long delay consequent upon the extensive repairs which were necessary to the vessel, wearled out the paisence of the greater portion of the passengers, who requested that their passenger may be the vessel, wearled out the paisence of the greater portion of the passengers being held, the concert and agent were denounced in no measured terms. A number of the passengers have left her, some selling their tickets as low as five dollars, rather than remain and be detained. The effort made to purchase the Brother Jonathan and her mate now building at New-York, for a regular line between this port, flavana and Chagres, will not succeed. Our merchants will not embark in the enterprise.

Mr. Latrobe, the Chief Engineer of the Baltimore and Ohio Raliroad, in a communication to the City Gouncils, states that the work is progressing so rapidly that he believes the road will be opened to Wheeling by the first of January, 1853. The advantages that will accrue from the completion of this work will asionish even Baltimoreans, with all their sanguine antic pations.

A colored man named Philip King was arrested yesterday, under an old Maryland law, on the charge of being a chizen of New-York and coming into Maryland to selle. This law prohibits 'any free negro' from coming into the State and remaining more than thirty days under the pensity of a heavy fine, in default of the payment of which he can be sold to raise the amount. King gave security to answer at our Orthinal Court to-morrow.

The United Fire Company, who purpose visiting New-York on the first of June, will take their magnificent Eagling of a heavy fine, in default of the payment of which he as ead Courts any amount of trouble. Those win og with them are picked men, however, and will no doubt be a creditable specime

U. S. Senator-Ill Blood among Whigs. U. S. Senato. To the Editor of The Tribune: San Francisco, Marck 5, 1851. San Francisco, Marck 5, 1851.

You will see it stated in an editorial article in the San Francisco Herald, that the Whig Committee have condemned, by Resolution, the cause of the Courier, or its senior editor, in the matter of the late Senatorial Canvass. This is untrue and was published with the intention of injuring Mr. Crane with Whigs in the Atlantic States, he being about to leave for Washington. There was no Legislative caucus to select a Whig candidate for the Senate-and there were several aspirants for the place. Under these circumstances, it would have been, I conceive, improper for us to have advocated the selection of any one man, and we did not do it—neither did we oppose any one of the Whigs named, through the columns of the paper. Mr. Crane, however, thought that a Whig might have been elected, had it not been for Mr. King's advent, and so openly expressed himself to his friends. For this action, several members of the Legislature, calling themselves Whigs, but of the Legislature, calling themselves Whigs, but acting with the Loco-Focos whenever they have thought it for their interest to do so, got together and privately passed some Resolutions at San Jose sgainst the Courier. These men, who were Mr. King's friends, undertook to force these Resolutions through the Whig County Committee here, but when they were brought up, they were laid on the table, indefinitely. Several members of the Committee waited upon the Editors of the Herald, and requested them to correct their statement, which they promised to do in their paper of this morning—but of course they did not do so—they knowing, in the first place, that it was false, and morning—but of course they did not do so—they knowing, in the first place, that it was false, and designing it to injure us on the Atlantic, as before stated.

Very respectfully,

FRANCIS W. RICE,

Associate Editor of Cal. Courier While we publish the above with pleasure, so far as the vindication of Mr. Crane and The Courier are concerned, we must nevertheless preclude misapprehension by expressing our own strong conviction, founded on many facts, that Mr. King was the strongest candidate the Whigs could have presented, and that his withdrawal would have ensured the election of a Loco-Foco. It certainly stands to reason that the Whig Members of the Legislature surveyed the whole ground carefully, and knew whom to support, and we see no good reason for withdrawing Mr. K.'s name while it stood at the head of the poll.

SHORT DRESSES .- Mrs. BLOOMER, editor of the Lily has adopted the "short dress and trowsers." and says in her paper of this month, that many of the women in that place, (Seneca Falls,) oppose the change; others laugh; others still are in favor: "and many have already adopted the dress." She closes the article upon the subject as follows

She closes the article upon the subject as follows:

"These who think was, look "queer," would do well to look back as few years, to the time when they wore ten or fitteen pounds of perticoat and bustle around the body, and balloons on their arms, and then imagine which cut the guerral figure, they or we. We care not for the frowns of over fasticlous gentlemen; we have those of better tas e and less questionable morals to sustain us. If men thick they would be comfortable in long, heavy skirts, let them put them on—we have no objection. We are more comfortable without them, and so have left them off. We do not say we shall wear this dress and no other, but we shall wear it for a common dress; and we hope it may become so fashionable that we may wear it as all times, and in all places, without being thought singular. We have already become so strached to it that we dislike changing to a long one.

ATLANTIC STEAMERS. Mr. Editor—In your paper of Friday morning you say, "The Cunard steamer Africa arrived here at 7 o'clock yesterday morning, after a passage of eleven days and ten hours." This would make it appear that the Africa had made the shortest western passage this year. It is not so. The American steamer Bailde, in February, made the passage in leeven days and twenty one hours, which is exactly the same time as the Africa this voyage. AMERICAN.

THE LATE HON. J. C. CALHOUN.—The precise durpose creases of the late Mr. Cashoun regarding the South and its relations to the Union, have been lavolved in some uncertainty. No one ever doubted that he was in favor of breaking up that sacred and invaluable confederation of the States, without which any single State, or say association of two or more exclusive of the rest, could not ling have preserved a political aristone; but the manner of secesism proposed by him has heretof re been sumewhat of a mystery. All doubt on the subject is at last cleared up has letter lately outlined in the Charrierte Coverer, addressed by General James Hamilton on the 2s inst, to Hou Win Pope, Builton, Beaufort Datrict, South Carolina, explaining the reasons which prevented his delivering an enlogious son Mr. Cashoun, according to the appointment of the transit of that your. The substance of the appoing is, that he could not have pronounced a dissertation on the proceipse and opinious of South Carolina's favorite see, without communicating a truth which would have been unacceptable to the unportly of his hearers, while the could not have suppressed to each an occasion, without a moral treason to the memory of his friend.

The truth relevest to its, that up to the period of Mr. Calboun's death. From Noah's Sunday Times, of Feb. 3, 1881.

Not a Purr — A few days ago the clothes of the little damanter of one of the proprietors of this paper accidentally took fire, and its grandmother, in her endeavors to extia guish the flames was unfortunate enough to burn one of ber hards to a bilster. She was suffering great agony, and the only remedy immediately available being Dalley's Pain Extractor, that was freely applied. Incredible as it may seem the next morning the effects of the burn had entirely disappeared, and the hand was as sound as ever. As this ocred under our own personal notice, we cannot refrain from advising every family to have a supply of it within reach is case of accident. DR. CHILTON'S NEW MAGNETO—

ELECTRIC MACHINES For Medical Application.

—These instruments possess great advantages over all others for medical use, the shocks being obtained entirely from permanent magnets, and the mechanism is so arranged as to cause the current of induced electricity to pass in juny direction, at the will of the operator. They require no galvanic battery to put them in action, and consequently there is no need of acids or other liquids so objectionable in the slinds now in use. They are always ready for immediate application, and are in no wise liable to get out of order. All that is necessary to put the instrument in action is simply to turn a small handle, which could be done by a child or even in many cases by the patients themselves.

They are put up in a portable form, being secured in next cases, from which they do not require to be removed. For sale, with the necessary directions for use, at Dr. CHILTON'S Chemical Warerooms, 83 Chambers et. N.Y. at 2 2w.

BAIN'S WORM KILLER -- More D children annually die from worms than from all other causes combined. These "little citizens" can be saved and made healthy.

BAIN'S WORM KILLER

BAIN'S WORM KILLER

removes the worms and makes the little patient perfectly well. It never fails. It kills or stupifies the worms and drives them from the system without the least injury, and always does good. It is the only infallible Worm Remedy ever made. It is a pleasant syrup that all children will gladly take, and ask for more. It contains no mercury. It is the cheapest and best worm destroyer in the world. The bottles are large, and sell at only 25 cents.

AYER'S CHERRY PECTORAL. A YER'S CHERRY PECTORAL.

A This invaluable remedy for all diseases of the Throat and Lungs, has attained a celebrity from its remarkable cures, never equalled by any other medicine before. Other preparations have shown themselves palliatives, and sometimes effected notable cures, but none has ever so fully won the confidence of every community where it is known.

After years of trial in every climate, the results have indiputably shown it to possess a mattery over this dangerous class of diseases, which could not fall to attract the attention of bysichese, which could not fall to attract the attention of the trial place, but of men who are known and respected throughout the country.

The widely celebrated Surgeon, Dr. Valentine Mott, of New York City, says.

"It gives me pleasure to certify the value and efficacy of "Ayer's Cherry Pectoral," which I consider peculiarly adapted to cure diseases of the throat and lungs."

Dr. Perkins, the venerable President of the Vermont Medical Gollege, one of the eminently learned physicians of this country, writes. The Churry Pectoral is extensively used in this section, where it has shown unmistanchie evidence of its happy effects upon pulmonary diseases.

Rev. John D. Cochram, a distinguished Giergyman of the English Church, writes to the proprietor from Montreal, that "he has been cured of a severe authmate affection, by Cherry Pectoral." His letter at full length, may be found in our Circular, to be had of the Agent, and is worth the siteation of asthmatic patients.

Where the Cherry Pectoral has been once used, no doubt remains of its virtues and ability to cure diseases of the Lungs.

Prepared and told by

JAMES C. AYER,

where he cherry record has a whole to the Lungs.

Prepared and sold by Practical Chemist, Lowell, Mass. and by all Druggists everywhere.
